

# Pallavi Kumari

## Developer

JP Nagar, Bangalore • +91-9035321847 • pallavicops@gmail.com • <https://www.linkedin.com/in/pallavi-kumari-dev/>

A motivated developer with experience in building and deploying applications across front-end, back-end, mobile, and web environments. Eager to contribute to impactful projects and grow through continuous learning and collaboration.

## PROJECTS

---

### PORTFOLIO Personal Project/ Work From Home

- Developed a personal portfolio using React to showcase my skills, projects, and experiences.
- Designed a sleek and user-friendly interface that invites visitors to explore my work and learn more about me.

<https://pallavi-kumari.web.app/>

### CHAT APP Personal Project/ Work From Home

- Developed a MERN Stack application with user authentication (sign-in and sign-up).
- Implemented real-time messaging for communication between registered users.

<https://github.com/pallavicops/chat-app>

### BLOG APP Personal Project/ Work From Home

- MERN Stack-based blog application for discovering, sharing, and engaging with content.
- Enables users to easily publish their thoughts and explore others' content in one place.

<https://github.com/pallavicops/appBlog>

### BREAST CANCER DETECTION College Team Project, AMC Engineering College

- Utilized machine learning algorithms to predict breast tumor status (malignant or benign) based on 32 cell attributes.
- Developed a web app for real-time predictions to aid in early diagnosis.

<https://github.com/pallavicops/Breast-Cancer-detection>

## EXPERIENCE

---

### Junior Software Engineer (Part-Time)

Devity, Bangalore

July 2024 – Present

- Built Inventorying, a tool that helps businesses manage inventory, sales, and customer data efficiently.
- Worked on making the app easy to use and improving its performance.
